SPAR Release R19-11 073.xxx.069.32410

Bulletin Date: December 6, 2019

Update: January 22, 2020

Purpose

This Bulletin is intended ONLY for the specific security problems identified below. The problems identified have been rated a criticality level of IMPORTANT.

Includes fixes for the following vulnerability:

- Hacked Clone dlm allows running of unwanted binaries during a clone file install
- Password field incorrectly submitted using GET method allows contents of field to be visible

Acknowledgement

Xerox would like to thank the Airbus security team for informing us of “Hacked clone dlm” vulnerability.

Software Release Details

If your software is higher or equal to the versions listed below no action is needed.

Otherwise, please review this bulletin and consider installation of this version.

Model	WorkCentre 3655/3655i	WorkCentre 58XX ¹ /58XXi ²	WorkCentre 59XX/59XXi ³	WorkCentre 6655/6655i

Unzip the file to a known location on your workstation/computer.

General Information

ConnectKey Software Version Decoder Ring

The software version numbers have specific meaning. When comparing ConnectKey version numbers to determine older/newer

- 1) Ensure you only compare those that start with the same first three digits (073),
- 2) Then look at the last eight digits only.

New General release: 073.xxx.075.34540 - 5= 2015. 345=day 345 of the year. 40 is respin 4.

New SPAR release: 073.xxx.066.08210 - 6=2016. 082=day 82 of the year. 10 is respin 1.

073...534540

073...608210

608210 is a higher number than 534540.

The fixes and features that will be in the 073...5.34540 (general release) are also in 073...6.08210 (SPAR Release)
