

Xerox Security Bulletin XRX22-002

Special Bulletin Regarding CVE-2022-23968

Bulletin Date: January 28, 2022

Version 1.1

1.0 Background

CVE-2022-23968 was published on 1/26/22 and describes a critical vulnerability in specific Xerox products running certain versions of firmware. Version [xx.61.23](#) released in June of 2020 and subsequent versions are not impacted by this vulnerability.

Details of CVE-2022-23968 can be found online:

- NIST National Vulnerability Database
<https://nvd.nist.gov/vuln/detail/CVE-2022-23968>

Xerox would like to acknowledge Mahmoud Al-Qudsi of NeoSmart Technologies in reporting the issue.

2.0 Purpose

This document is to identify Xerox products that may be impacted by CVE-2022-23968.

Xerox recommends upgrading to the latest version of firmware to reduce the risk of print outages caused by this vulnerability at www.support.xerox.com.

3.0 Products

Product	Firmware Location
Xerox® Phaser® 6510 Printer	Xerox.com
Xerox® WorkCentre® 6515 Multifunction Printer	Xerox.com
Xerox® VersaLink® B400 Printer	Xerox.com
Xerox® VersaLink® B405 Multifunction Printer	Xerox.com
Xerox® VersaLink® B600 Printer	Xerox.com
Xerox® VersaLink® B605 Multifunction Printer	Xerox.com
Xerox® VersaLink® B610 Printer	Xerox.com
Xerox® VersaLink® B615 Multifunction Printer	Xerox.com
Xerox® VersaLink® B70xx Multifunction Printer	Xerox.com
Xerox® VersaLink® C400 Printer	Xerox.com
Xerox® VersaLink® C405 Color Multifunction Printer	Xerox.com
Xerox® VersaLink® C500 Printer	Xerox.com
Xerox® VersaLink® C505 Multifunction Printer	Xerox.com
Xerox® VersaLink® C600 Printer	Xerox.com
Xerox® VersaLink® C605 Multifunction Printer	Xerox.com
Xerox® VersaLink® C7000 Color Multifunction Printer	Xerox.com

Xerox® VersaLink® C70xx Color Multifunction Printer
